

# Oral Surgery Essentials Level 1

Atraumatic Extraction and Simple Socket Preservation

with Dr. Michael Parchewsky & Dr. Gilbert Ng

**When: Friday, September 12<sup>th</sup>, 2025**

**Time: 8:30am - 4:30pm**

**Where: PDG Training Room**

(210, 855 - 42 Avenue SE, Calgary, AB)

**Cost: \$599 (non-PDG), \$499 (PDG)**

The basics of surgery principles are becoming ever more important in dentistry today as patients are keeping their teeth longer. Single tooth extraction done well can set up a patient for implants and restorative dentistry.

## Learning Objectives:

- Learn about pre-op and post-op treatment for surgery patients
- Understand medical contraindications for surgery and how to deal with them
- Radiology (CBCT/PAX) planning for better decision making and planning
- Learn principles of atraumatic extraction including instrument selection and techniques
- Basic suture principles
- Bone grafting principles for socket grafting including buccal plate repairs and dehiscences
