

Digital Implant Restorations

Planning, Parts and Prosthetics for your Implant Practice

This clinically focused full day course walks through the complete process of restoring dental implants with confidence, from confirming osseointegration to delivering esthetic and functional crowns and bridges. Working with your lab and Atlantis custom abutments will be discussed. Hands on will include model work with components and temporization principles.

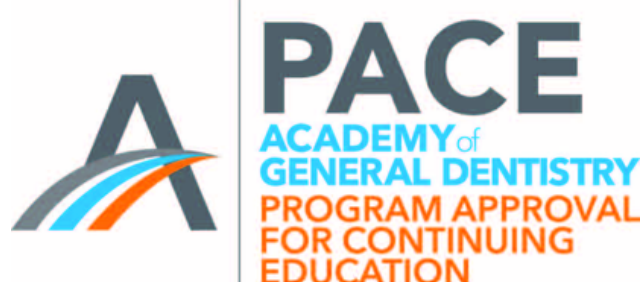

As the Chief Clinical Officer at Passion Dental Group, **Dr. Mike Parchewsky** is a leader in digital dentistry and implantology. With a DMD from the University of Saskatchewan and an OMFS Fellowship from Albert Einstein College of Medicine, he mentors for Dentsply Sirona and Atlantis and serves as Director of Clinical Protocols for OraQ AI software. An international lecturer and co-founder of Digital Work-ow Dentistry, he also consults on tech and healthcare systems

Dr. Vishal Sharma is a Calgary-based dental practitioner with over 20 years of clinical experience. He has served as Director of Clinical Operations for Dentalcorp Canada and is currently a Resident Faculty member at CDOCs. A graduate of the University of Saskatchewan College of Dentistry, he integrates advanced digital technologies to achieve predictable and efficient treatment outcomes. Dr. Sharma consults for Dentsply Sirona and lectures nationally and internationally. He is also actively involved in global dental outreach through Kindness in Action, providing care to underserved communities worldwide

Objectives

- Assess implant readiness for restoration
- Explain key restorative planning principles
- Utilize Atlantis abutments and digital workflows
- Work with Digitally focused local labs
- Compare material options
- Differentiate and assemble the main implant restorative components
