

# Anterior Composite

## Injection Molding in Everyday Practice

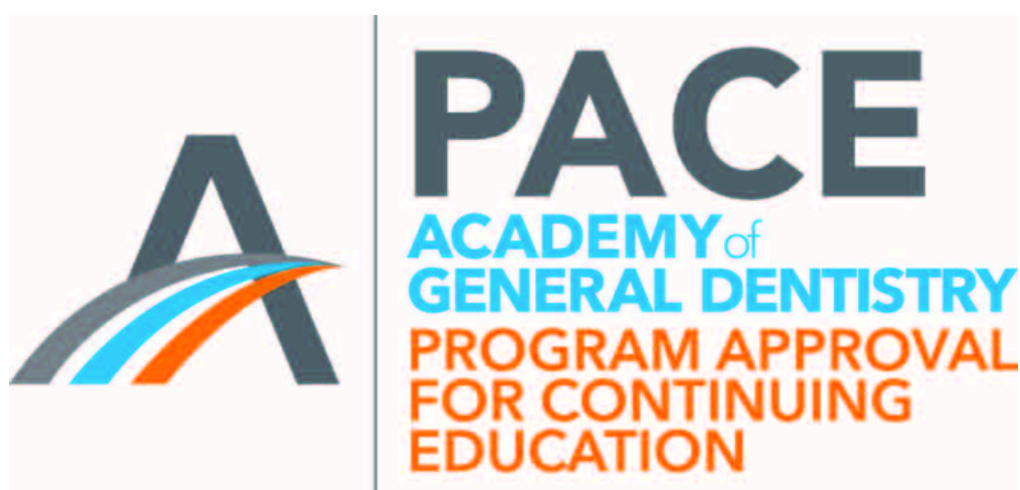

This 2-hour live webinar will walk clinicians through a predictable, minimally invasive approach to enhancing anterior esthetics using composite injection molding. Focusing on the esthetic zone, we will cover case selection, planning and communication, fabrication and use of silicone indexes, and a step-by-step injection protocol for closing diastemas, managing tooth wear, and creating direct composite veneers.

### Dr. Amanda Kryvenchuk, DDS, BSc

Dr. Kryvenchuk graduated from the University of Alberta dental program in 2001, and moved to the Calgary area. After working as an associate for 6 years she bought an office in Nanton in 2007. Over the years she has taken many continuing education courses and holds certificates in orthodontics, is certified to perform Invisalign® treatments, has training in areas of neuromuscular treatment, Digital Smile Design, Implants, bone and soft tissue grafting along with being a certified graduate of the Pinhole Academy.

### Dr. Rosy McCrodan, DMD

Dr. McCrodan loves all aspects of dentistry, especially working with children and surgical procedures. In order to evolve professionally, Dr. McCrodan is always researching the latest technology and techniques. She has also been involved in the South Vancouver Spear Study Club. Dr. McCrodan holds a Doctor of Dental Medicine Degree from the University of British Columbia.
