

See More, Miss Less

CBCT for Everyday Dentistry for the whole team

with **Dr. Michael Parchewsky**
DMD, FAGD

2D imaging only tells part of the story. This webinar shows dentists and their teams how CBCT reveals findings that conventional radiographs miss. We then work on how to integrate 3D imaging into daily workflows for better diagnosis, treatment planning, and patient communication.

LEARNING OBJECTIVES

- Identify clinical scenarios where CBCT provides diagnostic value beyond 2D imaging, including endodontics, implant planning, impactions, and pathology.
- Integrate CBCT into everyday practice workflows, from scan acquisition to treatment planning and case presentation.
- Use 3D imaging as a patient communication tool to improve case understanding and treatment acceptance.

Dr. Michael Parchewsky **DMD, FAGD**

As the Chief Clinical Officer at Passion Dental Group, Dr. Mike Parchewsky is a leader in digital dentistry and implantology. With a DMD from the University of Saskatchewan and an OMFS Fellowship from Albert Einstein College of Medicine, he mentors for Dentsply Sirona and Atlantis and serves as Director of Clinical Protocols for OraQ AI software.

An international lecturer and co-founder of Digital Workflow Dentistry, he also consults on tech and healthcare systems.
