On-line (Zoom)

Stop Referring, Start Extracting Wisdom Teeth in General Practice

Many of the wisdom teeth you refer out could be managed confidently in your own chair. This webinar gives you a practical, evidence-based framework for case selection, surgical technique, and complication management — so you know exactly which third molars to take on and how to extract them predictably.

LEARNING OBJECTIVES

- Apply a systematic case-selection framework to distinguish extractions appropriate for general practice from those requiring specialist referral.
- Perform predictable surgical extractions using proper flap design, sectioning, and bone removal techniques.
- Prevent, recognize, and manage common complications including dry socket and nerve injury

Dr. Michael Parchewsky
DMD, FAGD

As the Chief Clinical Officer at Passion Dental Group, Dr. Mike Parchewsky is a leader in digital dentistry and implantology. With a DMD from the University of Saskatchewan and an OMFS Fellowship from Albert Einstein College of Medicine, he mentors for Dentsply Sirona and Atlantis and serves as Director of Clinical Protocols for OraQ AI software.

An international lecturer and co-founder of Digital Workflow Dentistry, he also consults on tech and healthcare systems.
